

## Long Whatton C of E PE Curriculum and SEND

*"We all have dreams. But in order to make dreams come into reality, it takes an awful lot of determination, dedication, self-discipline, and effort"*

*Jesse Owens*

At Long Whatton Primary School physical literacy, underpins our PE curriculum so that every pupil can be included. Our curriculum motivates, improves confidence, physical competence, knowledge and understanding to value and to engage in sport for their future.

- We ensure a motivating and safe environment which is stimulating to engage every child.
- At lunchtimes and after school we offer opportunities for all including festivals and varied competitions for every child to access.
- CPD for staff is offered so they can support children and help them reach their full potential.
- Children are pre-taught instructions and vocabulary where appropriate so that they can build confidence and access learning.
- Adaptions during lessons are made, equipment adjusted and where needed extra time is allowed.
- Inclusion is planned for and in Early years there is time to practice. The children participate in Big Moves to help support physical development.
- We follow the competition principles – SMILES (safe, maximum participation, inclusive, learning, enjoyment, success).
- Staff have high expectations for all and bespoke scaffolding is applied to ensure all pupils achieve.
